The Emperor's Spears are a Chapter on the edge of destruction, last watchmen over the Elara's Veil nebula. Now, the decisions of one man, Amadeus Kaias Incarius of the Mentor Legion, will determine the Chapter's fate... The scattered worlds of the Elara's Veil nebula were once protected by the oath of unity sworn by three mighty Chapters of the Adeptus Astartes. The Star Scorpions were undone by flaws in their genetic coding. The Celestial Lions were ravaged by the Inquisition for sins they did not commit. Now, after hundreds of years, only the Emperor's Spears still keep their vigil. They are barbarian watchmen against the Outer Dark; bloodied but unbroken in their long duty. Amadeus Kaias Incarius, a brother of the Mentor Legion, is commanded to cross the Great Rift and assess the Spears' war-readiness, only to be drawn into the chaotic plight of a depleted crusade on the Imperium's benighted frontier. The decisions he makes, far from the God-Emperor's light, will decide the fate of the war-torn Chapter.

How did neighborhood groceries, parish halls, factories, and even saloons contribute more to urban vitality than did the fiscal might of postwar urban renewal? With a novelist's eye for telling detail, Douglas Rae depicts the features that contributed most to city life in the early "urbanist" decades of the twentieth century. Rae's subject is New Haven, Connecticut, but the lessons he draws apply to many American cities. City: Urbanism and Its End begins with a richly textured portrait of New Haven in the early twentieth century, a period of centralized manufacturing, civic vitality, and mixed-use neighborhoods. As social and economic conditions changed, the city confronted its end of urbanism first during the Depression, and then very aggressively during the mayoral reign of Richard C. Lee (1954-70), when New Haven led the nation in urban renewal spending. But government spending has repeatedly failed to restore urban vitality. Rae argues that strategies for the urban future should focus on nurturing the unplanned civic engage-

ments that make mixed-use city life so appealing and so civilized. Cities need not reach their old peaks of population, or look like thriving suburbs, to be once again splendid places for human beings to live and work.

This new volume explores the theory and practice of war and peace in modern historical context. In fifteen clear and concise chapters, this book hits the high and low points of international politics over a two hundred year period, plus a brief foray into the future out to 2025. War, Peace and International Relations serves as an excellent introduction to the international history of the past two centuries, showing how those two centuries were shaped and reshaped extensively by war. This book takes a broad view of what was relevant to the causes, courses, and consequences of wars. This upper-level textbook is an invaluable resource for students of strategic studies, security studies, international relations and international history.

This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.

Delve in to the dark past of the Dark Angels legion with this fantastic novel. Knight of the Angelicasta. Saviour of the Lion. Grand Master of the Order. Lord of the Dark Angels. Protector of Caliban. Chaos Heretic. Destroyer of Caliban. Sorcerer of the Abyss. Arch-traitor. Dark Oracle. First of the Fallen. Can one man be all of these things? Kept alive and imprisoned for ten thousand years, Luther is the curse and the salvation of the Dark Angels made manifest. None are so close to the heart and history of the Chapter as the man that embodies all that was great about the First Legion and all that is shameful about the Dark Angels. In his story is writ the tale of the Horus Heresy in a single, long life. Glory, honour, pride, shame and betrayal weave a tapestry of truth and lies that the Supreme Grand Masters of the Dark Angels have sought to understand and unravel across ten bloody millennia. Luther claims repentance for his past deeds, but was it his sins that condemned the Chapter to its secretive fate, or should warnings from history have been more closely heeded?

In less than twenty-four hours I'll be seventeen. Although technically, I won't actually be turning seventeen. I've been in the Nevernever too long. When you're in Faery, you don't age. So while a year has passed in the real world, age wise I'm probably only a few days older than when I went in. In real life, I've changed so much I don't even recognise myself. I thought it was over. That my time with the fey, the impossible choices I had to make, the sacrifices of those I loved, was behind me. But a storm is approaching, an army of Iron fey that will drag me back, kicking and screaming. Drag me away from the banished prince who's sworn to stand by my side. Drag me into conflict so powerful, I'm not sure anyone can survive it. This time, there will be no turning back.

None of the scions of Sanguinius are as bloody or wrathful as the Flesh Tearers. The fury of this Chapter, scorned by the Blood Angels and many of their successors, is legendary. Within them, the Black Rage is made manifest, a curse on the Imperium and its enemies. In the uncertain years following the end of the Great Heresy, it fell to Amit to lead this benighted Chapter. Upon his shoulders lay a heavy burden, for to prevent their own self-annihilation, the Flesh Tearers must not only fight their many foes but their very nature itself.

Despite the strong influence of just war theory in military law and practice, warfare is commonly considered devoid of morality. Yet even in the most horrific of human activities, there is frequent communication and cooperation between enemies. One remarkable example is the Christmas truce—unofficial ceasefires between German and English trenches in December 1914 in which soldiers even mingled in No Man's Land. In *Conspiring with the Enemy*, Yvonne Chiu offers a new understanding of why and how enemies work together to constrain violence in warfare. Chiu argues that what she calls an ethic of cooperation is found in modern warfare to such an extent that it is often taken for granted. The importance of cooperation becomes especially clear when wartime ethics reach a gray area: To whom should the laws of war apply? Who qualifies as a combatant? Should guerrillas or terrorists receive protections? Fundamentally, Chiu shows, the norms of war rely on consensus on the existence and content of the laws of war. In a wide-ranging consideration of pivotal instances of cooperation, Chiu examines weapons bans, treatment of prisoners of war, and the Geneva Conventions, as well as the tensions between the ethic of cooperation and the pillars of just war theory. An original exploration of a crucial but overlooked phenomenon, *Conspiring with the Enemy* is a significant contribution to military ethics and political philosophy.

Reshape your body and mind by eating light during the day and filling up at night—the core tenet of this revolutionary nutrition program based on survival science Along with the many benefits of leisure-class living comes obesity and its attendant ailments. In *The Warrior Diet*, Ori Hofmekler looks not forward but backward for a solution—to the primal habits of early cultures such as nomads and hunter-gatherers, the Greeks, and the Romans. Based on survival science, this book proposes not ordinary dietary changes but rather a radical yet surprisingly simple lifestyle overhaul. Drawing on both scientific studies and historical data, Hofmekler argues that robust health and a lean, strong body can best be achieved by mimicking the classical warrior mode of cycling—working and eating sparingly (undereating) during the day and filling up at night. Specific elements from the Warrior Diet Nutritional Program (finding ideal fuel foods and food combinations to reduce body fat) to the Controlled Fatigue Training Program (promoting strength, speed, and resilience to fatigue through special drills), literally reshape body and mind. Individual chapters cover warrior meals and recipes; sex drive, potency, and animal magnetism; as well as personalizing the diet for women. Featuring forewords by *Fit for Life* author Harvey Diamond and *Fat That Kills* author Dr. Udo Erasmus, *The Warrior Diet* shows readers weary of fad diets how to attain enduring vigor, explosive strength, a better appearance, and increased vitality and health.

In the wake of the Dropsite Massacre at Istvan V, the survivors of the Salamanders Legion searched long and hard for their fallen primarch, but to no avail. Little did they know that while Vulkan might have wished himself dead, he lives still. As the war continues without him, all eyes turn to Ultramar and Guilliman's new empire there, and Vulkan's sons are drawn into an insidious plot to end the Heresy by the most underhand means imaginable. Three years before the September 11 bombing of the World Trade Center—a Chinese military manual called *Unrestricted Warfare* touted such an attack-suggesting it would be difficult for the U.S. military to cope with. The events of September 11 were not a random act perpetrated by independent agents. The doctrine of total war outlined in *Unrestricted Warfare* clearly demonstrates that the People's Republic of China is preparing to confront the United States and our allies by conducting "asymmetrical" or multidimensional attack on almost every aspect of our social, economic and political life.
