How London was bought and sold by the Super-Rich, and what it means for the rest of us Who owns London? Today, the city is the epicentre of the world's financial markets, an elite cultural hub, and a place to hide one's wealth. In Alpha City, Rowland Atkinson tells the story of eager developers, sovereign wealth, and grasping politicians, all of which paved the way for the plutocratic colonisation of the cityscape. Atkinson moves through the gated communities and the mega-houses of the urban elite, charting how the rich live and their influence on the disturbing rise in evictions and displacements from the city. The book, fully updated, also looks at the capital's prospects in the aftermath of Brexit

and the pandemic, showing how the super-rich may capitalise on the crisis, increasing inequality and hardship. Tales From The Tarmac...compelling, "behind the scenes" stories of the outlandish and bizarre interactions and incidents between passengers and ground staff at one of the world's most intimidating airports, New York's JFK and beyond. These actual tales take you on an emotional roller coaster, ranging from humorous to crazy, from poignant to the macabre. The author, along with her many colleagues who contributed their amazing stories have years of airport ground experience, both operational and in passenger handling. The readers will undoubtedly relate to many of these tales, as the stories unfold! It's a riveting journey of laughter, tears and total dis-

belief!

This meticulously researched book explores the concept of fame in all its fleeting glory and confounding inconsistency. Why do so many entertainers do so much better financially than peers who have comparable resumes? Author Donald Jeffries also examines a subject he is quite familiar with; the myriad of unnatural deaths which have plagued the entertainment industry since the dawn of Hollywood. The deaths of John Lennon, Elvis Presley, Marilyn Monroe, Natalie Wood, and many others are scrutinized in exacting detail. Jeffries communicated with many older entertainers during the course of researching the book, and their perspectives are included here. On Borrowed Fame will be of great interest to fans,

celebrities, and anyone with even a cursory affinity for the world of show business. The Tales of Captain Robbie Mack - Up the Creek His attention wavered. The man was having an epileptic fit right in front of him, no-one else about. And yet his eyes were drawn to that damn chicken stoating around seasick drunk in the shower. Robbie Mack couldn't have been further from being a Captain at this point. He was just a lowly sea cadet. But this incident was just one of many experiences that took him from being a naïve wee lad from the Scottish village of Menstrie to becoming a successful and valued contributor in the global marine industry. Up the Creek takes the reader from 16-year old Robbie's earliest voyage around the world, seasick, homesick and bullied incessantly to attaining the seemingly impossible position of vessel Master. Sailing with shipping lines such as Cunard, P & O, Blue Funnel and many more, these tales will resonate with seafarers around the globe. But the reader doesn't need to be familiar with the marine industry to enjoy the characters in this first of several manuscripts. Like Tosh the schizophrenic cook or the gun-toting Angolan mercenaries. Or Irish Marie who

knew how to keep hubby asleep and out of her hair. Sometimes dangerous, occasionally tragic and often hilarious, Robbie's adventures taught him some important life lessons along the way. As a chief engineer said to him, 'Och Captain, I have poot the fire oot but yae need to go easy on the thruster.' With such guidance, how could he fail?

"The official illustrated guide of a decade of tennis on the ATP Tour, with in-depth profiles of the ten greatest players."

This book considers the intersections of race, gender and class in multicultural Australia through the lens of migration to the country. Focusing on Philippines-born migration, it presents the profile and history of this minority group through an examination of their print material culture over the last 40 years. Particularly, it examines the growth of the production of Filipino cultural identity and the politics of community building in relation to the sexualisation of their acquired citizenship. Given the promotion of Australia as a modern, multicultural, Western nation in the Asia-Pacific region, the book questions the bases on which this claim stands using the example

of Filipino settlement in Australia. Considering the social contradictions that continue to shape multicultural politics in Australia, it examines how the community makes sense of its migration through print material culture. The book analyses the community's responses to their minoritisation to understand how Filipino-Australian migration—the affective and economic appropriation of women's labour—is instructive of the social reality of millions in the global diaspora today. Based on archival and ethnographic research, this text straddles the interdisciplinary fields of gender and cultural studies, and is a key read for all scholars of Asian and Australian area studies.

This book demystifies the term "trafficking" with a view to properly understand its trends, dimensions, and gaps in policy and law that need to be plugged. Combating Human Trafficking aims to initiate fresh discussion on human trafficking, and offers recommendations to curb organized international crime. It explores varied dimensions of the crime and offers further classification to help effectively address the problem. It presents a new perspective of identifying assimilative interaction between social and criminal justice systems,

the progressive growth in socio-criminal legislations, and the universal demand of multi-agency approach to combat trafficking. Through the Brute Mute theory, it gives an illustrative description of micro and macro-governance, and offers a global perspective to the problem with examples and case studies.

ZEUS is an international organization dedicated to the eradication of certain scientific advancements to keep its members part of the global elite. The group targets any researchers or whistleblowers that may topple its position at the top of the pharmaceutical industry. The members' influence extends all the way to the top of the major world governments. One man holds the key to stopping them. Dr. Alex Bauman joined the Molecular Fat Studies Department at Queens University in Brisbane because he wanted to help the obese. Driven by unhappiness with his own weight, Bauman stumbles upon the knowledge to create a cure for obesity. This secret is dangerous to ZEUS. They don't want anything to affect the trillions of dollars they make on bogus obesity treatments. Presidential hopeful and California senator Marc Thwane is one of ZEUS's members. He can't let anything get in the way of his dark plans for the United States. When Thwane sends a black-ops team after Bauman, the two men's

destinies collide in this global adventure. Russian cosmonauts, Saudi royals, and more will help and hinder Bauman's search for the key to taking down ZEUS once and for all.

Since the great recession hit in 2008, the 1% has only grown richer while the rest find life increasingly tough. The gap between the haves and the have-nots has turned into a chasm. While the rich have found new ways of protecting their wealth, everyone else has suffered the penalties of austerity. But inequality is more than just economics. Being born outside the 1% has a dramatic impact on a person's potential: reducing life expectancy, limiting education and work prospects, and even affecting mental health. What is to be done? In Inequality and the 1% leading social thinker Danny Dorling lays bare the extent and true cost of the division in our society and asks what have the super-rich ever done for us. He shows that inequality is the greatest threat we face and why we must urgently redress the balance.

Compiling best practices and original research, this book examines the factors that influence the sustainability of creativity and innovation in organisations and proposes a toolkit to assess gaps within existing strategy. Focusing particularly on the United Arab Emirates (UAE), the author offers practical suggestions for improving and enhancing innovation, and ultimately

achieving results. Both creativity and innovation have become pillars for leveraging competitive advantage in recent years, and therefore this book is a vital read for anyone engaged in ensuring sustainable development in organisations, particularly those within the Middle East.

It is no coincidence that presidential candidates have been making it a point to add the late-night comedy circuit to the campaign trail in recent years. In 2004, when John Kerry decided it was time to do his first national television interview, he did not choose CBS's 60 Minutes, ABC's Nightline, or NBC Nightly News. Kerry picked Comedy Central's The Daily Show. When George W. Bush was lagging in the polls, his appearance on the David Letterman Show gave him a measurable boost. Candidates for the 2008 presidential election began their late-night bookings almost as

soon as they launched their campaigns. How can this be? The reason is that polls have been consistently finding that a significant number of Americans—and an even larger proportion of those under the age of thirty—get at least some of their “news” about politics and national affairs from comedy shows. While this trend toward what some have called “infotainment” seems to herald the descent of our national discourse—the triumph of entertainment over substance—the reality, according to Russell L. Peterson, is more complex. He explains that this programming is more than a mere replacement for traditional news outlets; it plays its own role in shaping public perception of government and the political process. From Johnny Carson to Jon Stewart, from Chevy Chase's spoofing of President Ford on Saturday Night Live to Stephen Colbert's roasting of President Bush at the White House Correspondents Dinner, Strange Bedfellows explores what Americans have found so funny about our political institutions and the people who inhabit them, and asks what this says about the health of our democracy. Comparing the mainstream network hosts—Jay, Dave, Conan, and Johnny be-

fore them—who have always strived to be “equal opportunity offenders” to the newer, edgier crop of comedians on cable networks, Peterson shows how each brand of satire plays off a different level of Americans’ frustrations with politics.

From Mumbai to Dubai to Bollywood to Hollywood is a factual description of the author's growing-up years in Mumbai, his working life in Dubai, getting conned by people he trusted in Mumbai, which led to his financial ruin that necessitated his return to Mumbai. He became a background crowd model and gradually, a full-time character actor in several popular TV se-

rials, super hit Hindi films and a model in prestigious Indian and Pakistani ad films and music videos. He went on to crack a tough audition to bag a major role in a Hollywood biopic plus an English film for the NYFA-UCLA. From Mumbai to Dubai to Bollywood to Hollywood provides real-time insight into life's realities in Mumbai and Dubai in general and specifically for those having no contacts but want to become models and actors in Mumbai.

Drawing on never-before-seen material, this definitive biography exposes the true extent of the Jackson family's dysfunctionality -- evidence of which is still in the public eye as they dispute the star's will Jackson was the most talented, richest, and most famous pop star on the planet. But the outpouring of emotion that followed his loss was bittersweet. Dogged by scandal for over fifteen years, and undone by his own tendency to trust the wrong people, Jackson had become untouchable in many quarters, a fact that wounded him deeply. Now, drawing on unprecedented access to friends, enemies, employees, and associates of Jackson, Randall Sullivan delivers an intimate, unflinching, and deeply human portrait of a man who was never

quite understood by the media, his fans, or even those closest to him. Untouchable promises to be a profound investigation into the enigma that was Michael Jackson.

2008 was a magical year for Cunard. For the first time, the line had three Queens in service; Queen Elizabeth 2, Queen Mary 2 and Queen Victoria. Queen Elizabeth 2 retired during the year, and sailed for Dubai on 11 November, while Queen Mary 2 had reached her fifth anniversary as the largest ocean liner afloat and Queen Victoria entered service.

"The Spiritual Stage" by Roger Blakiston is a unique insight into the spiritual thought process of a man who has spent his life in the entertainment profession. Although the author is a professional magician, lecturer, motivational speaker and children's entertainer, this book is a suggested read for all those who are already entertainers, or for those who are considering entering the profession. The book is deep and

thought provoking, as well as being amusing and controversial. Roger offers much wisdom gained during his years of experience in the business, and suggests that you apply the many universal spiritual principles to heighten your creativity both on and off stage. He shares with you the secrets of living a happy and fulfilling life and inspires you to share your God given talents with others. "My intention is for this book to be a positive and thought-provoking thesis on why we become entertainers and how we can best achieve our goals, dreams, and desires. Although entertainers (or those who aspire to entertain) will read this book, much of the spiritual content can be applied to any profession, as the principles are universal." Roger Blakiston
