Lenders can require a homeowner maintain adequate property insurance, and if not they can obtain coverage and add the costs of this force-placed insurance (LFPI) to the mortgage. This easy-to-follow, accessible book covers an area of insurance law that reaches nearly every area of consumer life. Its clear explanation of the subject and pertinent solutions to the continuing problems with LFPI practices make this an invaluable guide for attorneys and financial counselors.

Climate change has become a significant issue in scientific, political, and legal circles, and this may have profound implications for the insurance industry. More frequent catastrophic events such as floods, droughts, fires, hurricanes, and the like, whether or not attributable to climate change, challenge the insurance industry's abilities to measure and predict risk.

This book is about lender force-placed insurance practices ("LFPI") in the hands of alleged predatory mortgage loan servicers. It is written to meet the needs of professionals including financial counselors and lawyers who counsel borrowers and lenders concerning these practices. In the end,

counseling borrowers and lenders may ultimately require providing legal representation in presenting and litigating their claims and defenses arising from LFPI practices. Homeowners cannot forget, and so their counselors and representatives should never forget, that what is ultimately at stake in these cases is someone's home. This requires professionalism, which is required in all cases but is particularly required in an area like this where the stakes are so great.
