## GLOVER CURTIS

Multiplication War is a card game that has been around since I can remember and, since I am now 40-years-old, that is debatably a long time. ;) But I'm still young next to this long-loved game. Card games are the fool proof way to get kids learning math because kids love to ditch the paper and pencil now and again.

### Multiplication War Card Game | multiplication.com

If each of you has a number sentence with the same product, then it's war! When this happens, each player puts four cards face down and turns up two of them. The player with the largest product wins all eight cards. Set up the timer, and play the game for 10 to 15 minutes. When the timer goes off, each player should count their cards.

### Multiplication War | Activity | Education.com

Multiplication War Card Game. Posted by: Jen Wieber. If it's one thing I learned in the classroom, it is that the majority of students will respond positively to competition play. I found this awesome card game on Amazon and the girls play it everyday now. They even love to play this game with their papa.

### Multiplication War Card Game | multiplication.com

Engage your child in a game of Math War where everyone is a winner! This fun, yet competitive game, helps kids focus and solve basic addition and subtraction problems. Kids play together, flipping over cards and solving the problems on each, and the one with

the highest card value wins both cards.

### **Math War Addition & Subtraction Game Cards**

Above, Mary and Piper played Addition Boxed Number War. As indicated by the names on the margin, you can see that Mary won 2 rounds (rows), while Piper won 1 round (row). This means that Mary won the game. Abby and Holland played Multiplication War and Abby won 2 out of 3 rounds, so she wins the game! I created some other ways to play.

### **Multiplication War Card Game**

Multiplication War is a fun way to practice multiplication facts! This is a great game for math centers, review, tutoring sessions, extra practice, or just for fun. Using playing cards as a math manipulative gives kids an opportunity to learn more hands-on.

### **Multiplication War - Rachel K Tutoring Blog**

In fact, that's precisely the problem. For weeks after I taught him the rules, War was the only game he let us play, and it got old fast. If you haven't played War, it's a ridiculously simple card game. You deal the whole deck out to two players, and then both players flip over the top card. Highest card wins.

### **War (and variants) — Games for Young Minds**

Want to boost your child's math skills? Practice at home with math flash cards. We cover every level and age group up to sixth grade.

### **Math Flash Cards | Preschool - Grade 6 | School Zone ...**

I play math war games a lot! Here are some variations: I often have them play multiplication war, but if some students need extra practice on a specific portion of their times tables, such as 7's, I have them find a 7 in the pile before handing out their cards and place it face up. This card remains during the entire game.
