Note: Crystal Robert publishers Math workbooks are designed in USA and printed locally. Learning With Fun A fun and easy introduction to basic math concepts such as sorting, counting, matching, addition, and subtraction workbook. The workbook has 101+ pages with almost 100 practice questions and activities for little learners. The concepts and methods used in this book will engage your children and make learning fun for them. The book is one of the finest in kids workbooks Develop the Math Brain With new and unique learning activities, your little scholars will develop an interest in math and learn the problem-solving skill from an early age. Easy to read and understand font that clarifies the difference between 1s and 7s, 6s and 9s, and 4s and 9s. Make Math Interesting These math workbooks are perfect for grade 1 to 3. The exercises focus on basic concepts of mathematics like shapes, reading and writing numbers, money, counting to ten, addition, and subtraction. It is created in a way that even the reluctant learners will start taking an interest in math. Experts Recommended The ks2 workbook book is carefully developed in the supervision of leading children educational experts, with a focus on home learning so that your child will not get bored while learning math. The math workbook is closely developed according to the school curriculum to prepare your kids for schools and state exams. Easy to Learn and Teach Easy to understand questions and supportive illustrations help children understand and solve each problem. The answer key is also added at the end of the book with tips and guidance for parents. Give your children an interesting start with this addition and subtraction workbook

We believe kids get better at math with practice, resulting in confidence and positive attitude towards math that is required to excel in school. This workbook is intended for 2nd graders, where students have already mastered single digit addition and subtraction. This workbook provides kids with additional math practice that complements and supplements what is taught at school. The focus is on key foundational mathematics basics: addition, subtraction, and introduction to multiplication, division, and fractions. Note: Many schools do not start multiplication or division until 3rd grade, but we are covering these concepts here since it does take time and practice to get comfortable with multiplication and division. Happy learning!

Kids learn and stay engaged, thanks to word problems, mazes, along with challenging math problems and gain the confidence to improve their math comprehension and testing.

We believe kids get better at math with practice, resulting in confidence and positive attitude towards math that is required to excel in school. This workbook provides kids with additional math practice that reinforces and complements what is taught at school. There are no pictures or word problems, and focus on mastery of basic addition and subtraction. This workbook combines traditional addition and subtraction math problems, with number bond problems. Many elementary schools teach math using Number Bonds, and we want kids to have practice on both traditional math questions and number bonds to build fluency and speed in basic arithmetic.
